	neither the requirement for such a program exists nor would the results be sufficient to warrant this type of expenditure	
	in view of other possibilities that exist, i.e., and Indications Satellite.	50X1
	b. New General Search - We have no knowledge of what this line item is, but at first glance it would appear that this as well as a. above would be related to	50X1
50X ²	c. <u>Miscellaneous</u> - While we recognize that there are many items that can and probably were broken out under this line item, it is our view that a line item of marked miscellaneous warrants further breakout.	50X1
	d. Summary - In summary, it would appear that at least a. and b. above when considered with and the Indications Satellite warrant considerable coordination and scrutiny prior to expenditure of funds. The level of funding of	50X1
50X1	new programs and general advanced research appears very	50 X 1
	3. Program B - On 17 September 1963 and 20 September 1964 rogram B submitted the FY 1965 Budget On December we received from the DNRO an approved OSD FY 1965	50X1
50X1	udget estimate including for KEDLOCK. In 10 April 1964 we received from the NRO a request for our final TY 1965 Budget Estimate. On 5 June 1964 we were advised that so long	50X1 50X1
50X1	s we remained within we could readjust our line items swe determine priorities, and were reasonably assured that the	50X1
	would be our basic FY 1965 budget. Our total submission	50X1 50X1
